MAKEUP O-WARDS!

Photographs by KEVIN CREMENS

The first happy discovery of our annual quest to find the season's standouts: lots of pizzazz, from high-drama shimmer to high-tech ingredients and the prettiest finishes around. If you're drawn to subtle looks, we've got them, too. Neutral territory has expanded gorgeously, with more super-wearable options (and more fun) than ever. Intrigued? Read on for the creams—plus the shadows, pencils, and liquids—of the fall crop, every one a winner.

BRUSHSTROKE OF GENIUS

Sally Hansen Miracle Gel Collection

Like a traditional gel, this polish gives high-shine results that last up to two weeks without chipping. But the real magic is that it requires no UV light and quickly vanishes with regular remover.

BRILLIANT NO-BUDGE PENCIL

Elizabeth Arden Beautiful Color Precision Glide Eye Liner

When you want your eyeliner to last from breakfast to bedtime, this is the one you choose—it can stay in place for 14 hours (yes, it's true). Plus, the creamy formula contains moisturizing shea butter and a subtle hint of eye-brightening shimmer.

BEST CAMERA-READY FOUNDATION

L'Oréal Paris Visible Lift Blur Foundation

The elastomer gel in this velvety base reflects and refracts light to give your complexion a smooth soft-focus effect—excellent news in the age of selfies and high-def.

HIGHEST EYE-Q

Clarins Kit Sourcils "Pro" Perfect Eyes & Brows Palette

A pale pink shadow, three brow powders, a wax to hold stray hairs in place, a set of the teeniest, most adorable tools—including tweezers and a spoolie brush—and you've got all you need for groomed brows and pretty lids in one ingenious set.

BIGGEST, BOLDEST PIGMENT PAYOFF

Nars Audacious Lipstick

If you're fishing for intense lipcolor, here's the ultimate catch. It's available in 40 eye-popping shades, and each tube is packed with pigment (*really* packed—we're talking 100 to 200 percent more than many other lipsticks) and lip conditioners, such as highly hydrating tamanu oil.

MOST KISSABLE LONG-LASTING LIQUID LIPSTICK

Edward Bess Lasting Kiss Enhancing Lip Stain

In case there's a marathon smooching session in your future (here's hoping!), you need a glossy stain that stays put. This one maintains its rich tone and smooth finish, and it won't dry your lips.

MOST ON-TARGET DELIVERY SYSTEM

Tom Ford Beauty Concealing Pen

The elegant tube's fuzzy, spongy tip is doubly talented: It places concealer precisely on the spot you're trying to hide, then blends it seamlessly for an airbrushed finish.

MOST MAGICAL WAND

Lancôme Grandiose

An innovative, curved applicator allows you to coat every single lash—from the outermost to the tiny hairs at the inner corner—with conditioning, smudge-resistant intensity.

MOST FLATTERING—AND FOOLPROOF—TREND

Think neutrals are boring? One look at autumn's palette and you'll reconsider your position. Sure, there's plenty of the classic beige and taupe—but also dusky olive, silvery gray, and pink-tinged berry. All are a no-risk route to incorporating color into your routine. So play away!
