FASHION RENEGADE

Made in the Shades

Zoë Saldana's Chloé dress was perfect for the occasion, the Foundation Polo Challenge. Adding the aviators gave it attitude.

JEAN-IUS IDEA
Want to add a hit of something trendy to your denim rotation? Consider picking up these leopard-print or burnt orange jeans. I promise, they're just as easy to wear as a blue pair.

On the red carpet **Emma Stone** always has a fashion moment, but she's never a fashion victim. Her outfits are different from what others her age are wearing but still age-appropriate. It takes a confident redhead to play with color the way she does. And she's a joy to watch on-screen—makes my heart smile!

YOUTH IN A JAR
I apply this cooling gel two or three times a week before bed, when I feel my skin needs a drink. In the morning my face appears incredibly rested.

TURN IT UP
I'm usually a Top 40 guy, but when I heard Little Dragon's Machine Dreams (\$13; amazon.com), I fell in love. The electronic beat is sick! It's perfect runway music. I've actually put on heels at work and walked to "Looking Glass."

SHE'S SPOT-ON!
People can get sloppy during the day, but Liv Tyler looked effortless and also eye-catching in DKNY—like a pinup girl come to life.

My Fave Souvenir from Italy

I was in Florence for the Band of Outsiders show and stayed at the amazing Four Seasons. This diffuser was in our room. The scent is a cross between woods, tobacco, and leather. Every time I walked in, I'd inhale. So may-jor!
