LAYERING STYLE

CROPPED
over
LONG

- The key to this look is its dramatically differentiated tiers. Which means your cropped item shouldn't end anywhere close to the hem of your long shirt underneath.
- Stick with muted colors and classic patterns (such as stripes or dots). Otherwise, the effect of so many overlapping fabrics can be very clown college.

over
LONG

- Make sure your top layer is lean and covers your rear. This will create an elongated, skinny silhouette.
- At least one piece of your outfit should be in a light, flowy fabric. Long plus long in heavy materials equals you resembling a tree trunk.
- Wear with platforms or heels.

LAYERING STYLE

JACKET over VEST (or vice versa)

- Form a waist—either with a belt or by choosing a top that hits at your middle.
- Choose a slim-fitting piece for your bottom half to offset the thicker items up above.
- Unlined, lightweight jackets work best here. And keep the outermost layer (whether vest or jacket) slightly roomy. You'd like to be able to move your arms, wouldn't you?

LAYERING STYLE

SHORT SLEEVE over LONG SLEEVE

- It's a classic casual look for T-shirts, but don't stop there. Play around using other options: dresses, blouses, and sweaters.
- Your long-sleeve top should be light and slim-fitting so that you can add to it without bulking up.

LAYERING STYLE

DRESS or SKIRT over PANTS

DRESS
OVER
TROUSERS

- Due to the fullness they can create around the hips, trousers are best paired with loose A-line dresses, not short skirts. (Wear leggings or skinny jeans with those.)
- Keep your dress to knee-length or above.
- Unless your style is super-boho, don't combine your dress with jeans—too hippie chick.
